Introduction

This report is laid in the both Houses of Parliament as required pursuant to section 59A of the Dangerous Drugs Act Chapter 11:25 as amended.

Background

The Government and people of Trinidad and Tobago recognise that production, trafficking, and consumption of illegal drugs are disruptive to public health, safety, and the social fabric.

Passage of the Dangerous Drugs Amendments in 1994 brought the laws of Trinidad and Tobago in conformity with the requirements of the 1988 United Nations Convention. These amendments cover precursor chemicals, money laundering, maritime trafficking, extradition of money launders, forfeiture of assets and removal of impediments to effective prosecution.

The Dangerous Drugs Act Chapter 11:25 is an Act to provide for the control for narcotic drugs and psychotropic substances, and to make provision for the confiscation of the proceeds of drug trafficking and other provisions in connection with drug trafficking and matters connected therewith. Parts V to V111, containing sections 30 to 53, were repealed by the Proceeds of Crime Act number 55 of 2000. Notwithstanding any proceedings in respect of drug trafficking offences which had commenced before the proclamation of this Act proceeded as if sections 30 to 53 of the Dangerous Drugs Act continue to have effect. Act 55 of 2000 was proclaimed on the 6th day of November 2000 by Legal Notice 269/2000.

The Dangerous Drugs Act

This Act is administered by the Ministers of Health, National Security, and Foreign Affairs. Notwithstanding the Minister of Health pursuant to section 59A, is mandated to cause to be laid in both Houses of Parliament, annually, a report on the administration of the Act.

- Part I - addresses the preliminary provisions which include the definition of terms/words used in the Act. It also provides that it shall have effect even though it is inconsistent with sections 4 and 5 of the Constitution.
- Part II - addresses the possession of and trafficking in dangerous drugs. It also empowers the Minister of Health to make Regulations for inter alia the issue of licences for the import, export, diversion, sale, manufacture, production, or distribution, at a stated place, of any dangerous drug; and issue licences for the cultivation, gathering, or production, at a stated place, of opium poppy, marijuana, or coca plant. Further it provides for a number of actions to be offences, and prescribes the punishment where a conviction occurs.
- Part II A - deals with offences relating to Precursor Chemicals. It also gives the Minister of Health the power to amend the Fourth Schedule by addition or deletion therefrom any substance, the inclusion or exclusion of which is by him deemed necessary in the public

interest. It also empowers the Minister to make Regulations such as for the keeping of records and the labelling of consignments of scheduled substances.

- Part III - addresses the supply of dangerous drugs by Pharmacist under licence and the appointment of Inspectors and Analysts. It also contains a number of offences and the penalties attached thereto.
- Part IV- addresses summary convictions.
- Part IV A - provides for the Burden of Proof and Presumptuous.
- Part VI11A addresses Offences on the High Seas.
- Part IX contains miscellaneous provisions such as the power of the Ministers of Health and Finance to make Regulations. It also repeals the Narcotic Control Ordinance and the Narcotic Drugs and Psychotropic Substances Control Act.
- The first schedule contains a list of Narcotic Drugs,
- The second schedule contains a list of Psychotropic Substances,
- The third schedule contains amendments to the Interpretation Act,
- The fourth schedule contain a list of Precursor Chemicals, and
- The fifth schedule addresses enforcement powers in respect of ships.

Roles and Responsibilities of the Drug Inspectorate with respect to the Enforcement of the Dangerous Drugs Act No. 38 of 1991 and its Amendment Act 27 of 1994

Currently the Drug Inspectorate controls and monitors narcotics and preparations containing narcotics.

1. International Responsibilities

1.1. United Nations Single Convention on Narcotic Drugs 1961

Activities

- Quarterly Statistics of Import and Exports of Narcotic drugs – **Form A**
- Annual Estimates of Requirements for Narcotic Drugs, Manufacture of Synthetic Drugs, and Cultivation of the Opium Poppy, the Cannabis Plant and the Coca Bush – **Form B**
- Annual Statistics of Production, Manufacture, Consumption, Stocks and Seizures of Narcotic Drugs – **Form C**

1.2. United Nations Convention on Psychotropic Substances 1971

Activities

- Annual Statistical Report on Substances Listed in the Convention on Psychotropic Substances of 1971 – **Form P**

1.3. United Nations Convention against Illicit traffic in Narcotic drugs and Psychotropic Substances, 1988

Activities

- Preparation of “Annual Information on Substances Frequently used in the Illicit Manufacture of Narcotic Drugs and Psychotropic Substances” – **Form D**

1.4. **Comisión Interamericana para el Control del Abuso de Drogas (CICAD)**

(Inter-American Drug Abuse Control Commission)

- Preparation of the Multilateral Evaluation Mechanism (MEM) indicators for CICAD

2. National Responsibilities

- 2.1.1. Monitoring and controlling narcotics in accordance with relevant legislation by verification and processing of relevant applications for annual narcotic licences to pharmacies, pharmaceutical firms and Licences, Certificates of Official Approval to Import and Approval of Export for Narcotics.
- 2.1.2. Visiting pharmacies, pharmaceutical firms, nursing homes and private hospitals, to inspect premises, stocks and records of narcotics in compliance with relevant legislation.
- 2.1.3. Inspection, verification and destruction of expired narcotics.
- 2.1.4. Inspection of all new and relocated premises to ensure compliance with relevant legislation and institutional guidelines.

- 2.1.5. Audit and take-over of narcotic stocks and records of closure of antibiotic and narcotic cupboards when licensed pharmacist is leaving and there is no incoming pharmacist.
- 2.1.6. Hand-over of narcotic stocks and records and reopening narcotic cupboards when there is an incoming pharmacist.
- 2.1.7. Investigation of any breaches of narcotic legislation and taking of necessary action.
- 2.1.8. Maintenance of Narcotic Inspection and Application files.
- 2.1.9. Monitoring the movement of narcotics into and out of the country. This is facilitated through the receipt and audit of transaction reports from all importers monthly and maintenance of database for narcotic sales.
- 2.1.10. Destruction of Police Narcotic exhibits.
- 2.1.11. Verification and endorsement of “Export Declarations for Narcotics” from “Competent Authorities” (Regulatory Authority of a foreign country).
- 2.1.12. Transmission of copies of Certificates of Official Approval to Import Narcotics to “Competent Authorities”.
- 2.1.13. Transmission of Copies of Certificates of Official Approval to Import Narcotics to Customs & Excise Division.
- 2.1.14. Registration of new Narcotic Preparations and Preparations containing narcotics for use by the population.

Performance of Activities

All of our international responsibilities have been met and completed forms have been submitted, in most cases, within the stipulated deadlines.

Notwithstanding a critical staff shortage, all of our national responsibilities with respect to the monitoring and controlling of narcotics have been met; with the exception of items 2.1.2 and 2.1.10 above.

Despite the absence of regulations and our critical staff shortage, most of our responsibilities with respect to controlling and monitoring of precursor chemicals have been met. However, activities such as visiting factories and chemical distributors to inspect stocks, usage and records, monitoring the movement of precursor chemicals out of the country, and maintaining a database on precursor chemicals have not been done.

Statistical reports for the years 2015 and 2016 can be found in Appendices I, II, and III.

57. (2) The Minister of Finance may make Regulations for the seizure of any article or thing which is liable to forfeiture under this Act.

- **No new Regulations were made in 2015 or 2016.**

Constraints and Limitations

The establishment of the Drug Inspectorate consists of eleven (11) pharmacists, eight (8) of whom are inspectors. In recent years however, the Drug Inspectorate has lost a significant number of pharmacists through attrition, voluntary retirement and resignation. This has resulted in a severely short-staffed department with only four (4) inspectors and no junior pharmacists. Succession planning has been virtually non-existent.

Furthermore, it is nearly impossible to attract and retain new pharmacists because of the compensation packages which are available in the public sector as compared to those offered in the private sector and some public health institutions. The present staffing constraints have resulted in the inability of the department to perform some of its critical functions efficiently and effectively.

This has negatively impacted several of the core activities of this department, including but not limited to the following:

1. The last decade has seen a rising trend in the incidence of unregistered and counterfeit narcotics being offered for sale at private pharmacies. This has been difficult to monitor and control due to the current staff constraints and consequent reduction in inspections.
2. An increase in the availability of pharmacy services offered at public sector health facilities as well as the opening of new private sector pharmacies and medical clinics countrywide has led to an increased requirement for inspections which either could not be performed or completed in a timely manner.
3. General inspection audits of private and public pharmacies have declined considerably.
4. No inspectors were available to verify and destroy police narcotic exhibits for the years 2015 and 2016. This has been an ongoing problem for the last few years.

Additionally, it has been noted by the Inspectors that standards of practice, including record keeping, for pharmacies and pharmacists in the private sector are on the decline. This can in part be attributed to the infrequency of routine inspections by the Drug Inspectorate, which adversely affects the department's ability to adequately monitor the use of narcotics in the country.

Recommendations

The Drug Inspectorate Division has limited staff for the considerable amount of duties for which they are responsible. At present, the department is severely understaffed as seen in the table below:

TABLE OF COMPARISON OF ACTUAL STAFF VS ESTABLISHMENT POSTS

POST	ESTABLISHMENT	ACTUAL STAFF	REMARKS
Pharmacist I	3	0	
Pharmacist II	2	0	
Pharmacist III	6	1	3 Appointed, 2 Acting Pharmacist IV
Pharmacist IV	2	2	2 Acting as Pharmacist IV
Principal Pharmacist	1	1	

In order to mitigate the identified constraints, it is imperative that additional Pharmacists/Inspectors be appointed to the Drug Inspectorate so that the standards for the regulation of pharmacies and the monitoring and control of narcotics can be maintained and in some cases, improved.

Additionally, an update of the current legislation, including revision of pertinent regulations, is necessary for the efficient and effective control of dangerous drugs in the country.
