Accounting Policies 30 September 2004

The principal accounting policies adopted in the preparation of these financial statements are set out below:

a Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards and under the historical cost convention.

b Financial instruments

Financial instruments carried on the balance sheet include cash and bank balances, accounts receivable and accounts payable and are stated at their approximate fair values determined in accordance with the policy statements disclosed.

c Property, plant and equipment

Property, plant and equipment are stated at historical cost and are depreciated on the reducing balance basis, at rates estimated to write off the cost of each asset to their residual values over their estimated useful lives as follows:

Freehold Land	-
Freehold Buildings	2%
Leasehold Improvements	10%
Plant and Equipment	20%
Office Furniture	10%
Office Equipment	10%
Computer Equipment	25%
Fixtures and Fittings	10%
Medical Equipment	10%
Motor Vehicles	25%

Land is not depreciated.

Profits or losses on disposals of property, plant and equipment are determined by comparing proceeds with the carrying amount and are included in income.

Property, plant and equipment are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of an asset's net selling price and value in use.

Accounting Policies (Continued) 30 September 2004

d Inventories

Inventories are stated at cost determined using the average basis.

e Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost and comprise cash in hand and cash at bank. Bank overdrafts are included within borrowings in current liabilities on the balance sheet. For the purposes of the cash flow statement, cash and cash equivalents also include the bank overdrafts.

f Trade receivables

Trade receivables are carried at the original invoiced amounts. No provision was made for the impairment of these receivables.

g Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into Trinidad and Tobago dollars at the exchange rates prevailing at the accounting date. Transactions in foreign currencies are recorded at the rate of exchange prevailing at the transaction date. All exchange differences are taken to the income and expenditure statement as incurred.

h Government grants

Grants from the Government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Authority will comply with all attached conditions.

Government grants relating to recurrent expenditure are deferred and are included in non-current liabilities. They are recognized in the income and expenditure statement over the period necessary to match them with the net expenditure for the year which they are intended to compensate. Government grants relating to the purchase of property, plant and equipment are included in non-

current liabilities and are credited to the income and expenditure statement on a straight line basis over the expected lives of the related assets.

i Taxation

The Authority is not subject to corporation tax, by Act Number 5 of 1994.

j Comparatives

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.
