SUGAR INDUSTRY LABOUR WELFARE COMMITTEE

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30th SEPTEMBER 2001

INCORPORATION AND BUSINESS ACTIVITIES

1. **The Sugar Industry Labour Welfare Committee was incorporated in the Republic of Trinidad & Tobago by Ordinance No. 12 of 1948.**

Its principle activities are as follows:-

- Provision of secured housing loans
- Development of Infrastructure of housing settlements
- Maintenance of related housing settlements

2. **SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies are based on generally accepted accounting principles.

a) **Basis of Preparation**

The financial statements are prepared using the historical cost convention.

b) **Freehold Land and Development of Housing Sites**

Freehold land is purchased by the Committee for development over time. Funds have been provided by Central Government for some land purchases and infrastructural development of housing sites.

It has been a policy of the Committee and a condition of the contract with the Borrowers that all lots distributed should be conveyed in full, free from all encumbrances to the borrowers upon the expiration of the **twenty (20) years Lease** (there are cases where lots have been conveyed before the normal expiry date). A land rent is collected for the duration of the period.

A Cabinet decision made in **1985** has changed the terms and condition in respect to land distributed by the Committee in order to be consistent with other lands distributed by the State for housing purposes. Lots distributed after **22nd April, 1986** would attract a **thirty (30) years Lease**.

No provision has been made to remove the cost of settlement where the **twenty (20) years** period of the lease to borrowers has expired. In many cases the legal formality has not yet taken place, although the right exists.

A policy is being established to quantify the write off of these expired settlements.

c) **Fixed Assets and Depreciation**

Fixed Assets are recorded at **Cost** and includes improvement. The cost of maintenance and repairs are charged to expenses. Upon disposal of items the cost and related Accumulated depreciation are removed from the respective accounts and the gain or loss, if any, is reflected in the earnings of the year.

Depreciation has been provided to write off the assets over the estimated useful life. Depreciation is not provided on freehold land

The Committee's policy on the depreciation of the following assets is to write off the book value on a straight line basis. A proportionate charge is made in the year of purchase except where the asset is purchased in the latter half of the year, in which case a pro-rata basis is applied. Assets that are still existing at the end of its estimated useful life have been left with a **\$1.00** balance to signify their existence.

Current Rates of Depreciation Are:

a. Electrical Items	20% per annum
b. Motor Vehicles	20% per annum
c. Computer Hardware	20% per annum
d. Computer Software	20% per annum
e. Other Items	10% per annum
f. Work in Progress	No Depreciation

Capital Expenditure on rented premises is depreciated using the straight line method at the rate of **10% per annum** on assets held at the end of the year. The rate was originally intended to cover the expected Occupancy period of the building.

d) **Bad Debts**

Provision has been made for doubtful debts.

The provision made in these financial statements is based upon prudent analysis of the value existence of the security. At present all delinquent loans are under review by the Committee (via a constituted Sub-Committee). An ongoing investigative exercise is in progress.

e). Capital Grants

A depreciable asset purchased with a government capital grant is amortized in the same manner as the asset is depreciated.
